SUMMARY

I am a highly skilled Software Engineer currently working at **ICOSNET** and sometimes as a freelancer, with a master's degree in Networks and IT Security and extensive experience contributing to diverse projects. I delve into solving complex challenges across departments such as Support, Finance, and Marketing, tailoring solutions to their needs, optimizing workflows, and implementing scalable innovations to drive organizational success.

Expertise: Git (GitLab, GitHub), Python (Django, TensorFlow), Flutter, Heroku, PHP(Laravel), JavaScript (React.js, Node.js, Express.js), Java, WHMCS, API's, MySQL, MongoDB, Figma, Odoo, CRM.
